			looking for guidance from the legal side. Second portion has to do more for red zone: Highways / essential deliveries, ect... when we deliver this to members have to make sure it aligns w the Mission that its clear / that they can articulate → consult w. Had conversation w I/c Harper the rest of City (aside from red zone) is his responsibility - he is onboard w this - Kavanaugh will put together messaging.
1041	Bell		this was implemented was for other incidents going on but we can use it as a tool.

1111	Bell	James	Red zone will be very different enforcement compared to let's say the airport. - not one size fits all here. Have we mailed a ticket to someone from Red zone? Can't we start that.	
1112	E/C	Bell	What is the purpose - now w/ P+ needs to be given room to do what they need to do to accomplish - could completely the same shut down what they are trying to accomplish.	
1113	Bell	E/C	mailing not now - later on in 2-3 weeks to make them accountable (original / CVOP)	
1114	E/C	Bell	Strategy when things calm down (gathering info by QRT's)	
	E/C		what if something happens @ the Airport - fall under my purview?

Meeting for PLT negotiations
update.

1320	Chief	
------	-------	--

city manager - that Maine
involved in negotiation to

someone who has ability to

10/28/20

Communicate w core organizers

Dave

<u>time</u>	<u>from</u>	<u>to</u>	<u>Notes</u>
			1500 hrs Announcement to maine and organizers with developments. Letter - removal all trucks south of Wellington / STAM / still footprint on Wellington - Agree no large maintain staging area - will remove trucks (staging only) out of Ottawa - will agree for some underemine time to not bring in any more trucks. Maine would then agree - prepare to meet and listen to their concerns and pass them along further up in Govt.
1303	Chief		Do next - maintain operations as is #1 - this new footprint and moving to another location outside → will that create greater demands on resources or free up resources - need # of resources freed up. #2 - Group Sussex/Biden doesn't include them so still have to deal with

time	from	to	Notes
			→ enough resources to enforce new order and to remove ③ Rickan/Sussero? * Assuming negotiation - what is the egress plan (what resources what implication on mission/ organization) manage area where they are moving too.
1328	Bell		group they are negotiating to are actually separating from the other group that will still be existing on Wellington
1328	Bell		when we take streets back we need a plan to make sure
1329	Chief	Bell	④ they don't fill back up (secure) (fortify or enforce what is trying to come in)
1329	Chief		this will change dynamics - language (P) and we still doing the PLT plan. Rickan/Sussero. keep in mind what this will look like in 2-3-5 days.
1331	Perguson		this is a good move in right direction PLT strategy has a lot of info to share to public that we are
1331	38 (P)		

time	from	to	Notes
			doing what we can - if they they chose not to and could face fines / charges.
1334	E/C		this seems to align w/ main plan & support what JLC Ferguson going through plan now to approved this actually accelerates what we wanted to do in the next couple days - no concerns from my end OPR air unit will be up tomorrow afternoon - coordination piece here will get ready for it.
1336	E/C		No faith in PLT group and mention of wanting a more senior representation for negotiation. is that right?
1337	Ferguson		Yes - been back and forth - want someone more senior to represent.
1337	E/C		I think the meeting I had the ^{the} with PLT - clear vision / messaging will gain some trust -
1338	Springer	Ferguson	S/sgt Wooker (Gisele) will be linked in w/ John Ferguson - that could / should help.
1340	E/C		concerned that this is a ruse to get more trucks onto Wellington and no one leaves - Police can't leave a vehicle in minimum rate of trucks & on W. incident

<u>Time</u>	<u>From</u>	<u>to</u>	<u>Notes</u>
1338	Chief		need a 1430hrs briefing before the 1500 hrs announcement.
1344	E/C	Hull	need egress plan from traffic. if looking at end state Palmer has better idea what we need on management piece. Imagine reduction on footprint and reduction of static points
1346	E/C		Need to look @ remaining emergency lanes open for egress
1347	Lucas		reduce to Bay / Lynn would cut 1/2 resources. Keep portage bridge open. Can I share w partners here @ ICRCC?
1348	REDACTED		
1350	E/C		Might be strategies we can use to make it not so comfortable.
1408			

Don

<u>Time</u>	<u>From</u>	<u>to</u>	<u>Notes</u>
1352	E/C		Egress plan Hull has a concept of operations - hands on - can share this info w PLT. Hardening of downtown core - but we need to work with city to figure out routes - special events - city of Ottawa to work on this - traffic manager who was working on hardening plan is sick w Covid - need traffic mgr engaged.
1353	Palmer		Team is here will brief and look into it.
1353	Hull		traffic manager is in NCBCC to help / city not in room due to Covid
	E/C		this is something new - weren't supposed to discuss plan but will table that and have a good discussion on what we are doing moving fwd in red zone.
1356	Bell		tasking: Bridan/Sussan how will we manage that senior to manage Bridan/Sussan - who?

1532	E/C	Keith Martin	connect w I/C Palmer asset that can be used. → van (new PSV) Tim Hodgins requesting it for mass arrest directed for I/C to determine where better utilized.
1548	E/C	Springer	Framework we verbally discussed #3.4 using SS PLT to the max asking for actual execution piece. - calling Pardy.
1551	E/C	Pardy	→ no issues w plan - can't find overall execution piece heavy PLT / Negotiations. reducing footprint → demilitarized
1552	Pardy	E/C	this is coming next - commander's intent.
1554	E/C	Pardy	Good w approving plan w some minor changes

time	from	to		Note
1554	Pardy	E/C	will make changes - send them to me	
1556	E/C	Pardy	need to have in place heavy PLT → Gunt involvement might reduce Foot print. overall execution plan ↳ ↑ PLT + Negotiation ↳ reducing Footprint / Demolization	
1558	Pardy	E/C	we can start developing a plan like that as asked. link w REMP POU → they have a plan in the works.	
1602	Pardy Springer	E/C	link in w MTD. as well the ask is amount of officers there have assigned tasks and realistic operational cycles of Deployment.	
1603	E/C	Pardy	now that we have a plan this will be transparent.	
1604	E/C	Pardy	looking for a plan now to control the perimeter of the Footprint	Core Harder Plan → How no prob. to del.
1605	Pardy	E/C	give us what we need and we can make it happen.

time	from	to	Notes
2003	Hall	E/C	apparently PPS / RCMP didn't want vehs on Wellington may want to talk w them.
2003	E/C		Larry Brookson to be liaised w by Trish D/C Ferguson.
2004	E/C		Jeff Leblanc / Mark Nethercott will be going to the NAC in morning.
2045	—		Meeting w D/C Ferguson / McKenna / Drummond / Bernier. briefing D/C Ferguson what I don't want happening is that they can't leave because of us. Drummond met w organizers / city - agreement - able to park more trucks on Wellington between Elgin / Bay. Rideau / Sussex will remain as not part of this group. Info came in from OPP contact few trucks leaving - miscommunication confirmed w Dru that the movement was just to move trucks to make more space

on Wellington - wanted to do this tonight - said no in daylight. Got PLT / traffic to align to make this work.

Hull went over plan for egress seems fine but will adapt to make it work.

PLT spun up - Pull team 0800 hrs -> risk if drags on then no sustainability if works then will be manageable to maintain.

Connected w Springer to coordinate w us on resources coming - will connect Palmer in the morning (OPP traffic units from East region).

2050

E/C

Ferguson

Grisele is aware of the "mistrust" and coordinating throughout the day on the way here.

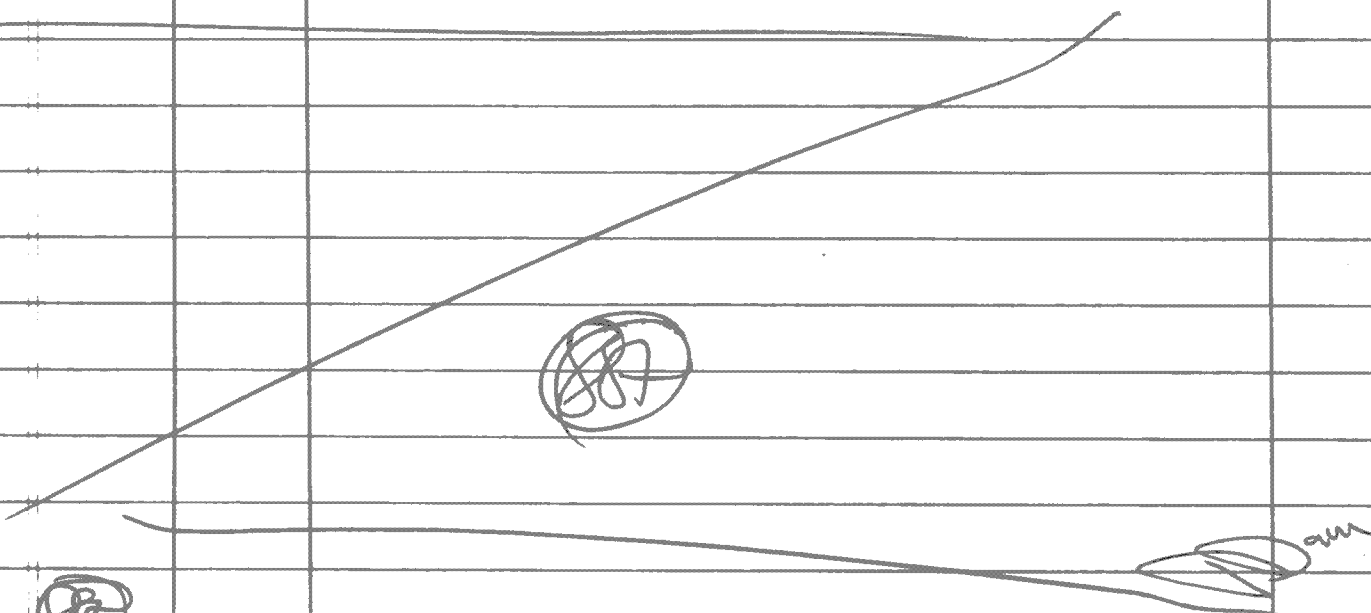

2052

Drummond

Haire stuck his neck out w letter but the letter is not clear -> capacity / safety concerns would be more space if tents bouncy castle^{etc.} come down

Time	From	To	Notes
2055	E/C	Ferguson	PLT has the means to do this is out sending rank - will apply process and will make it happen. Drummond won't be able to coordinate/manage - PLT take over that main connection it will be fine. traffic → city all lined up for Jersey barriers Oklahoma POU off on forced rest OPR POU confirmed enough of them here - OPS POU avail to respond in 60 mins. think Gisele taking over is good - just want to make sure they don't gain grounds.
2057	Ferguson	E/C	Concern playing games when they start parking trucks → for later action might impact.
2059	E/C		Springer is not all confident on this actually happening tomorrow in his experience has never seen anything like this actually happening / follow through.

time	from off	to	Notes
2101	Ferguson to E/C	Drummond	it would push on the Federal side of same thing happening first maire - second feds.
2102	Drummond		they know being spread out helps them.
2103	Palmer	E/C	hardening plan is what we have right now - already in place
	E/C Palmer		attempt to get it up to Queen
	Palmer	E/C	thought Albert see how it goes and if need be go to Queen.
			where does that leave us w Stam.
2105	Drummond	Ferguson	packed - our deal is only for Wellington - but if must ^{push to} leave Stam to the end. ^{Free} Stam and up res ^{to}
			would concentrate on North/South streets first.
2109	E/C		we have the resources in place hope we are not spinning them for nothing.
2111	Ferguson	Drummond	play hard ball - we still have to deal w Coventry and Biden/Sussex to deploy resources to -

time	from	to	Notes
2111	E/C	Perguson	can have heavy towns here in 12-18 hrs & 34 of them.
2113	E/C	Perguson	sent you plan - confirmed from chief about plan from the gov?
2114	E/C	Palmer	build plan around it -> appendix. Will be feeding my request for plans directly to NOC York / Durham POU leaving in the morning Still have OPS/OPP POU here.
2116	E/C	Perguson	Message I want to send to organization - review and let me know and I'd like to send it in the morning.
2140			end of Day.

time	from	to	briefed scribe on arrival	Notes
0850 1020	EJC	scribe	PLT meeting @ city Hall @ 0901 meeting Comment by Bernier: acknowledging what had been through first 2 weeks and acknowledging challenges / barriers faced with to effectively do their job. which contrary to National Framework but reassured them that as I take Command that they are now fully integrated into my command table and that PLT will be given priority to operate within their framework and will be fully part of providing input into my decision making. asked for patience and understanding as we transition into this new command. Also have my full support. PLT teams asked for pictures / profiles of all key players.
